In a recent article in the *Youths Companion*, on "How to cure a cold," the writer advises a hot lemonade to be taken at bed time. It is a dangerous treatment, especially during the severe cold weather of the winter months, as it opens the pores of the skin and leaves the system in such condition that another and much more severe cold is almost certain to be contracted. Many years constant use and the experience of thousands of persons of all ages, has fully demonstrated that there is nothing better for a severe cold than Chamberlain's Cough Remedy. It acts in perfect harmony with nature, relieves the lungs, liquefies the tough tenacious mucus, making it easier to expectorate, and restores the system to a strong and healthy condition. ADVICE TO MOTHERS. — Mrs Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays the pain, cures wind colic, and is the best remedy for diarrhoea. Twenty five cents a bottle.

Go to Will Wright for a good Photo. He is still at Peterson's gallery over Thaxter's store turning out cabinets at \$5 per dozen in cloudy or fair weather. n25

ALL SORTS.

Senator Stewart has introduced a free coinage bill.

Mrs. Geo. Garrison is visiting her parents in this city.

Austri Hail has been elected Recorder of Hawthorne by one vote.

Dr. E. G. Winnie can be found at his Dental Parlors on Telegraph St one door west of Carson.

Ferd Ried succeeds Peter Dunne as U. S. Revenue Collector with his office at Winnemucca.

Chas. H. Kelly has just received a new assortment of Lizards, Frogs, Rats and Foudams; everybody likes them.

Call and see those Rochester, Incandescent, Marsh, Library, Piano and Standard lamps in great variety at Chas. H. Kelly's.

The young ladies of St. Peter's Guild gave a very pleasant party last evening at the Armory Hall, which was well attended. All who were present had a delightful time.

Louis Cassigrandi, the man in Reno who taught his daughter to slide up behind passing vehicles and abstract articles from them, has been sent to the penitentiary for two years.

The Carson Wheelmen desire to contradict the report that its members intended boycotting the Episcopal Ladies' Guild party. The report has no foundation and was circulated by some malicious person.

The free holiday edition of the *Appeal*, for country circulation, is considered very favorably by our local advertisers. In spite of the rush to take advantage of this innovation, there is still room for a few more.

It is now proposed to trust Government money with women instead of men on the grounds that they would not skip the country. Most people would rather trust their money to a woman than a man, but even women are sometimes mighty uncertain.

Don't forget the Wheelmen's phonograph ball on New Year's eve. There is no catch-penny arrangement or "sell" connected with the party, but a genuine treat, and one which will be enjoyed by old and young, and will be fully worth the price of admission. Tickets admitting gentlemen and ladies, one dollar.

Geo. Garrison who was in the Pamlico-Garrison suit publishes a card to the effect that it was his side and not the Pamlico that offered to compromise and also swears that the verdict was for his side and not the Pamlico. This seems to be the most puzzling suit on record and one involving a good deal of altitudinous lying somewhere.

Among the incidents of childhood that stand out in bold relief, as our memory reverts to the days when we were young, none are more prominent than severe sickness. The young mother vividly remembers that it was Chamberlain's Cough Remedy cured her of croup, and in turn administers it to her own offspring and always with the best success. For sale by G. C. Thaxter.

Nothing is so desired by a woman as a beautiful complexion. This can only be obtained by the application of Appel's Complexion Cream. This preparation does not cover blemishes but cures them. REMARKABLE PREDICTIONS.

What a California Paper Thinks of 1890

The Oakland Times of the 10th publishes the following article, which will be read with interest by Nevada as well as California papers:

On November 20th The Times contained an exhaustive editorial on weather probabilities. It has been heard from in the abundant rains which have fallen since the beginning of December.

Now that the great rains are here we propose to quote a few words from the editorial. We said: "To the agriculturist it is of direct interest, because, if the story of the past is reliable, the closing years of the great cycle will be years of abundance—the very opposite to drought. Losses that occur will be due to excess of moisture in all probability. The influences last ordinarily, some three to five years, moderate toward the end of the great cycle."

We are approaching the year 1890, which year is the fiftieth of the great cycle. It is well known to astronomers that the twelfth and the fiftieth years from and after certain dates are distinguished for phenomena that it is supposed are due to the position of the planets in relation to one another and the sun.

As Jupiter, that mighty planet, circles nearer or further from the sun some greater magnetic force is exercised to repel or attract it. If it happens that several other planets are in the same relative position, then the mightier the influence exerted and of course our earth feels the shock. Jupiter's equinox occurs in its greatest intensity once in twelve years. Those of other planets occur in varying times, from a few weeks to months or years. If all occur together very remarkable phenomena result. It is known to those who peculiarly effect the science of the stars and weather that once in fifty years comes the great culmination during which earthquakes are more shocking, winds more severe, lightning more striking; rains are heavier and deluges greater; snows deeper, sun-spots are bigger, auroras brighter, falling meteors more abundant.

The year 1740 was indicated by Sir Isaac Newton and others as being the cycle year, according to their calculations. The forecasts being fulfilled, of course, 1790 was the next, and 1840 followed in order. The events that followed did confirm the theory and accordingly the year 1890 was fixed as that in which the next great half century cycle would culminate. We are coming right on to the year without any notice being taken of it.

The Storm.

Carson got another regular snow storm yesterday. The night before it cleared up, and the blue sky was studded with stars. Everybody was laughing at the weather signal man, but in the morning they changed their tone.

Yesterday afternoon it cleared up again, but of course no one can tell how long it will remain so.

The snow is piling up in the mountains and elsewhere, and it is now sixteen feet in the mountains on the C. P.

Carson School Debating Club.

The Carson High School Debating Club will hold its first regular meeting Friday Dec., 14 in Prof. Howe's room, at Central School building. The subject for debate will be: "Do newspapers do more harm than good?" The public is cordially invited.

The storm has played havoc in California by washing out bridges and levees and swept away several human beings. Very little damage has been done in this State.

GOOD SNOW.

It is Packed Solid in the Mountains.

Emery, the stage driver, says he has not seen such a good snow in the mountains for years. It will average three and a half feet deep, but in places it is twelve. It is packed solid by reason of rain having been mingled with it. It would snow a few hours and then a shower would soak it, and at night it would freeze. This has been going on for several days, and the snow is now so hard that when a horse steps off the road and into the snow he must pull his hoof out where he got it in, and that, too, with difficulty.

No such snow has fallen in the mountains for many years, and it will remain there all Winter, and that which falls on top of it will have a splendid foundation to stick to.

All this means plenty of water next season and prosperity everywhere in the State.

Change in Tuscarora Mines.

At a meeting recently held in San Francisco, W. E. Pierce resigned from the Superintendency of the following mines of Tuscarora district: Navajo, Belle Isle, North Belle Isle, North Commonwealth and Delmonte. It is rumored that R. M. Catlin, formerly Assistant Superintendent and Civil Engineer, connected with these mines, will be appointed Superintendent of the Belle Isle, North Belle Isle and Navajo, and F. E. Coffin will be appointed Superintendent of the North Commonwealth and Delmonte.

Shaw's Hot Springs.

These springs are the most popular bathing resort in the State. The baths are not only a luxury, but very beneficial and invigorating, and can be had at any temperature or depth. The dressing rooms are supplied with comfortable fires if desired. The analysis of these waters shows their medicinal qualities to be excellent. The swimming pond is large and elegant, ranging in depth from three feet to six feet, and kept at a temperature of 98 degrees (blood heat), is sixty feet long by twenty-four feet wide, and supplied with spring-board, trapeze, swing rope and shower bath. A delightful swim can be had here at any time of the year. The price is very moderate; 50 cents per bath including ride to Springs and back in the bus that runs for the accommodation of all bathers. d7,1w

What on Earth

Is the reason people will not, cannot, or do not see any difference in cheap nos trums put up by Cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal prices? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BEGG'S BLOOD PURIFIER & BLOOD MAKER, and every bottle that does not do its work, will cost you nothing. W. H. Chedick, Druggist

How Can Parents

allow their children to cough and strain and cough and calmly say: "Oh! its only a little cold," and keep giving them cheap and dangerous medicines, until they are down with lung fever or consumption, when they can be so easily relieved by BEGG'S CHERRY COUGH SYRUP? It has no superior and few equals. W. H. Chedick, Druggist.

Cough! and Cough!! and Cough!!!

What in the world is the reason you will cough and keep coughing and still keep trying inferior medicines when BEGG'S CHERRY COUGH SYRUP will positively relieve your cough at once? This is no advertising scheme, but an actual fact, and we guarantee it. W. H. Chedick, Druggist.
